YANTIAN'S SUPPLY OF SHORE POWER REACHES A NEW HISTORICAL MILESTONE

Summer 2024 / Sustainability / Smart Tech / Snapshot
Business Unit: HUTCHISON PORTS YANTIAN

Hutchison Ports YANTIAN's supply of shore power in 2023 has reached 12,000,000 kWh, greatly reducing vessel carbon emissions by nearly 9,700 tons, a figure equivalent to planting approximately 540,000 trees. Electricity supplied by YANTIAN's shore power is the highest among all ports in Mainland China.
